

3203: Basic Fire Investigation - New Requirements:

[Click here to visit site](#)

New Requirements:

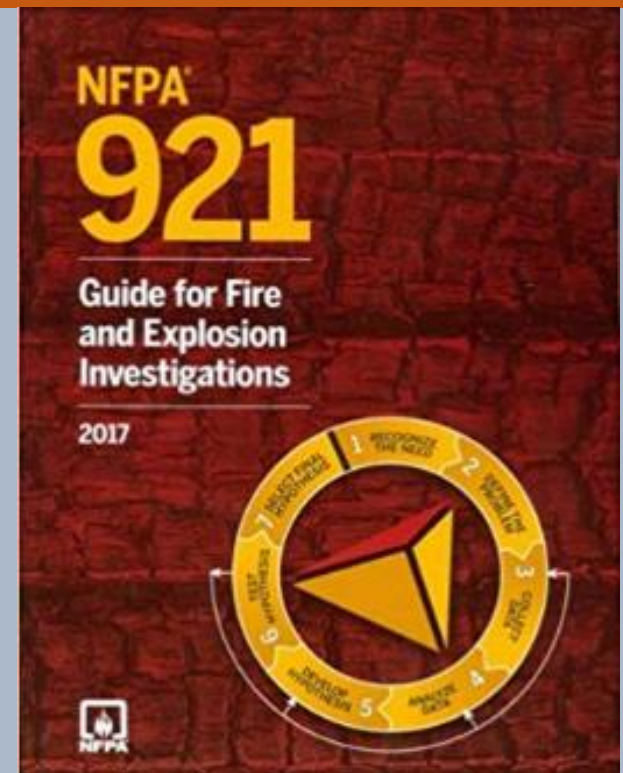

Students are responsible for bringing a copy of the **NFPA 921 2017: Guide for Fire and Explosion Investigations** book to class.

NFPA 921 is not provided by SCFA.

[Click here to purchase NFPA 921 2017.](#)

New Requirements: Students must successfully complete the following *prerequisites*, provided by Certified Fire Investigator (CFI) Trainer. Access is free to these 10 modules through the CFI Trainer website. No membership required.

- [Fire Investigator Scene Safety](#)
- [The Scientific Method for Fire and Explosion Investigation](#)
- [Introduction to Evidence](#)
- [Documenting the Event](#)
- [Physical Evidence at the Fire Scene](#)
- [Investigating Motor Vehicle Fires](#)
- [Introduction to Fire Dynamics and Modeling](#)
- [Investigating Fatal Fires](#)
- [Fundamentals of Residential Building Construction](#)
- [Search and Seizure](#)

Applicants **must** provide a copy of their CFI Trainer transcript and documentation to support the *prerequisite* requirements at the time of application.

Application process opens July 1.
