## NFA's Best Practices in Community Risk-Reduction

*Course Dates: October 23-24, 2017*

*Course Location: SCFA Columbia campus*

*Instructor: Bryan Adams, NFA Instructor*

This two-day course demonstrates to students nationally recognized principles that, when used appropriately, can lead to community risk-reduction programs that can measure success in local communities. This course will give students the opportunity to explore programs from communities across the United States that have been showcased at Vision 20/20 symposiums. These programs demonstrate what nationally recognized organizations identify as examples of "best practices" in community risk reduction.

At the end of the course, there is an exam. A final grade will be provided to each student.

[Pre-course assignment](#): Please complete this one hour assignment prior to attending class.
